WhiteClay was stocked fairly well in early October. Most heavily stocked pools were within walking distance of the fish-wagon.

I live a few miles up the West Branch and fish the DH section from GoodHope down on a regular basis. It does appear that quite a few fish have been poached out. Unfortunately, it is not uncommon to see poachers tromping out with full stringers within days of stocking since everyone knows that there has not been a ranger in there for the past 10 years.

It is also not uncommon to see some of "the regulars" relocating stocked fish to more unlikely lies away from the bucket dumping stocked holes..... Most guys walk right by them....

It would be nice if the ranger stopped in once in a while....
