do you smoke Denny ?

i'm not being a wise guy, but cold feet is a sign of poor circulation. how cold was it - below 30F ?

i fish and ski in smart wool socks with no problems. i do take a small thermos flask of coffee or tea in my pack if i'm going to be out more than 2-3 hours.

i fish all winter, but no more than 4 hours at a shift. that's why i look for small streams where i can park nearby and have a warm up.
