If you are looking to get a pair of nice polarized fishing glasses. I recomend you put out the extra money and get a pair of Cost Del Mar. The lenses come in 7 different colors. Each color has a different pupose. So you choose the color for what you do.

Check out this article on the Costa Del Mar Wave Killer. [Costa Del Mar Wave Killer Review](#)

I personally own 2 pair and the quality, durability, and looks are just outstanding.
