I have a 7wt nrx and love it. It was my first "big deal" rod, and has a magical feel in this 24 year old's hands.

Congrats. Is that the older NRX? It has those blue bands, I thought they did away with those accents for 2012?

It was a demo rod but I wouldn't mind owning one of the blk and blue ones . I haven't purchased the rod yet but will probably get it after xmas sometime
