Tying: I haven't seen many, but if you're into deer hair/bass bugs, Pat Cohen has a new how-to video which looks awesome:

[Review](#)

Other than that, I've seen some of the older oliver edwards videos which have some good patterns (plus fishing). Some great information/tips, but these can be slow at times.

And if you're into tying/fishing streamers, I would bet kelly galloup's [dvd's](#) would be worth the watch.

Fishing: [Eastern Rises](#) is tough to beat imo. [Musky Country](#) is good as well, and I recently saw [Connect](#), which shows a handful of short segments of different fishing destinations.

Enjoy your new toy!
