Now, I do have to ask, any recommendations for gloves?

This is easy - get a pair of [these](#).

You can find these at a lot of places. I've tried neoprene, fleece, and nothing beats these. Wool keeps you warm when wet, and holds up much better than fleece. They're cheap enough to just throw out when they get nasty, but also wash up well.

Keep a spare pair in your vehicle - it's easy to lose a glove when fishing.
