Unfortunately you're in one of the worst parts of the state for trout. Like Flip said you'll have to travel to find some trout. There any wild trout in your area but search the stocking list for your county on the fish.state.pa.us site for a fall stocking. The laurel highlands area is a good option as well as the Allegheny national forest area, but both are good drives for you.

Don't discount other species of fish too. Bass, panfish, pike, walleye, musky, etc. You can definitely find some of those in your area.

Most of all, keep asking questions on here. We'll be more than happy to help.
