As a newbie what is the best way to find brookie streams if you're adventurous?

I live in Bucks (Newtown Area) which isn't prime fishing so when I say local I'm talking within a 75 mile radius Nth, Sth or West. Without being a pain in the arse by pm'ing guys when I see a write up and a place that looks interesting.

Are these maps:

[Fishing Maps: Trout and Bass Pa.](#)

the best way to go outside of having the luxury (which I don't) of getting out every weekend with guys who hit them up frequently?

///FYI: Swattie and Pcray .. I haven't forgotten about the Newbie Brookie Expedition/Jam for next spring. Will bump that thread in Jan or Feb.
