Jack,

During this time of the year, I usually have luck with the "Spruce Creek Steelheads" in the Harvey section, however, I've never hooked that many large fish in one section it one outing. At first I was using larger nymphs and caddis pupas to entice these fish but no luck. It's only when I decreased the size of the flies and went from 4x and 5x down to 6x fluorocarbon tippet were they interested.

Dale
