I heard they were going to quit stocking the DH areas on Pine Creek to, I think it's a mistake, when I was up there twice in October, there were at least a dozen anglers at each DH areas, and I was there during the week. I believe the economic impact for the region is positive with the stocking of trout in the fall.

I also think they should increase the stocking of Pine Creek to the entire length, not only would it attract more anglers, but i also feeds the eagles and ospreys, which is a positive thing.
