Books listed are good ones. I, being old, like quite a few of the older books and recommend them if you can find them.

A Modern Dry Fly Code -- Marinaro

Wonderful World of Trout -- Fox

Trout Madness -- Traver

William Schaldach's artsy outdoor books have nice fishing tales

any Gierach book

A Home on the Water -- Dennis

George Harvey memoirs -- Harvey. Shields

There are so many other good ones. One of the disadvantages of being old is that I have read many them and cannot look forward to reading them!

Good reading.
