Used my Ithicus 3/4 yesterday and liked it. Hard to say anything about performance at this point since it was just a little brookie stream but it did everything I needed and was balanced well on my 6.6' 2wt. Fly line seemed okay too. Like I said didn't do much casting over a few feet but when I had to, the line went out well. Not sure how long it will hold up but so far I liked it. I'm not big on spending a lot of money on fly lines since I'm so tough on them anyway, but if I can get a season or so out of it, I'll have my new source of lines.

Thanks Ryan.
