This section does not prohibit a person from returning fish unharmed to the waters from which they were caught or taken.*

I wonder if Mike can explain what the underlined designation means. Is it all Class A streams and does this include some other wild waters, or finally, does it include everything on the reproduction list? I have never seen a list of stream designated as "wild trout management." Is this a secret list? 🤔

Likely "lawyer speak" to create a catch-all phrase to catch-all...
