In the beginning you will spend more time getting your line out of the trees than you do fishing. It will get better though but it will never go away.

Sometimes I think it gets worse! I mean, YOU get better.

But as you get better, you try tighter streams, tighter holes that you woulda walked by before, or you try to reach that pool from another 5 feet back. So you spend just as much time in trees, you just get there by doing more difficult casts! lol.
