Great vid PSU! One of the best of its kind I have ever seen on Youtube, and a great example of what this kind of fishing is.

Dude, when your rod bent over on that fish at 2:55...what a great feeling that is. Your heartrate went from pretty much nothing to like 120 bpm I bet...mine did just watching it. I actually felt nervous with you, hoping you'd land it!

Very well done, both from a fishing and filming perspective. You might be cruisin' for a bruise for the spinners, but thanks for sharing and risking the BS. I could have easily done another 8 minutes of that 😊, I enjoyed it.
