Went to Cabela's this AM and handled some rods. I'm leaning towards this ..

[Cabelas LSi](#)

I love their 25 year warranty and anything with their name on it I have returned/exchanged no problem even w/out receipt. \$179 retail on sale for \$129. Dude said it is medium+ action .. Good?

Thinking of putting this reel on it as their combo (get Fly line and backing)

Think a few of you mentioned this rod but any opinions (and/or the reel) are welcomed. Thanks for the info in this thread .. helped me with many questions.
