I have that LSi rod in a 7'6" 4wt and love it. I'd say that it is one of my "go to" rods and I fish it as much as I do my 9' 5wt. I have an Allen "Trout 3/5" reel on my 4wt and it balances very nicely.

I think you'd be happy with that rod and as you mentioned, the warranty is solid. For the money, it's a pretty good option.
