Shell Caris is a good guide, He used to work with Shore Catch Guide Service. I can highly recomment Jim Freda, I booked a day with him over 10 years ago to learn Jersey wade fishing. It was worth every penny too. I also had a half day with Capt Gene Quigley but this was two days after a hurrican event. Beleievit or not i got into some nice fish fishing Jetties. I learned what to look for on the beach also. Originally the morning was booked with Gene and the Afternoon till dark with Jim. Since the conditions for boat were out I went to Betty & Nick's had some food an perused the goodies. then took a nap till we met up with Jim Freda. I would absoltely recomment Jim or Shell they are great guys and you can learn alot.
