I don't see the point of tippet rings, maybe because I tie my own leaders and don't use furled mono.

I tie my own leaders too and I use tippet rings for two main reasons. 1. When I put a new piece of tippet material on my leader the leader remains the same length. 2. The tippet is fast and easy to put on. I just use a clinch knot on the ring and the same on the fly. Done.
