I have had 50+ fish days on the Erie tribs, but even there the numbers are dropping. Haven't been there this year because of lack of water, too hard to plan a trip when it's 6.5 hrs away with these conditions, don't enjoy catching Steel in a bathtub LOL!

If you are really persistent and really a good FFer you MIGHT be able to have a 20 fish day on the LL, but the fish will probably be small.
