I fished the LL in mid November and landed 12 in about 3 hours.

Three of them were over 16-17 inches and also 2 fat 15 inch Brook Trout.

I also saw a handful of really big Rainbows { 20 + } .

I went back last Sunday and caught 2 fish in 5 hours and saw very few fish and nothing big. Not even in the Kiddie Pool.

Very strange . Possible poached ????

Or it could just be the fish were laying low that day.
