ok, sorry i thought you were making your own blank(splitting cane and all that).

as far as i can find for ready to build bamboo blanks i have found, hook and hackle, ye olde english flyshop(imports), and the anglers roost(imports). the only one selling 2-3wts is the anglers roost but they have a nice import selection([http://theanglersroost.com/products/b ... esidential-bamboo-blanks/](http://theanglersroost.com/products/b...esidential-bamboo-blanks/)).

this is the only info "third party" on the roost blanks.

so, like i said n that message i sent you, let me know which taper you are going to be using and then i can figure out what to ream the grip to and i can get that right to you. and what outside diameters if you want anything larger /smaller to fit your hand better.
