Dear Flydog,

For trout I use Orvis Super Strong, mostly because I got a good deal on one of those tippet holder thingies full of it that hangs down from a "D" ring on my chest pack.

For warm water fishing I use nothing but Maxima. I prefer the Chameleon but I'll use the Ultra-Green if I can get a better deal on it.

I never tried fluorocarbon and I never will.

Regards,

Tim Murphy 😊
