I'm a fan of the Oakley Half-Jackets, been wearing them for over 6 years. I have the VR28 polarized lenses - more of a brownish/yellow type lens. Also just got a set of Black Iridium Polarized. These are great for seeing fish & hold up well. I have not yet had the black iridium lens on the water, but hope to do so soon. They have a great price point & it's easy to get different sets of lens for different conditions, but the VR28 are an all around good lens.
