Thank you all again, you have been tremendously(SP?) helpful.

After searching on cabelas for a bit I have narrowed it down to a few combos. All of these I plan to use for small mouth primarily and I am going to pick up a used rod from my uncle for the trout. The used rod is only a 7.5' 5wt rod. so when I get a bit better at casting I can use this one on the smaller streams.

Here is what I have broken it down to:

1. [sweetwater combo](#)

This is the sweetwater combo. which is the first one on the list.

2. [The 9' 6wt](#)

3. [9' 7wt version](#)

I am leaning more towards the later.

I thank you all again for being so helpful.

Bob
