waste is filtered out of the water GeeBee, It never gets in the water..then the filtered waste is utilized after composting in small farm vegetable farms. The water that enters is almost pristine.

Salmon farms are entirely different subject, ohh an by the way the Lehigh Valley had a Aqua farm in Emmaus, it was called Blue Valley Brands,raised Steelhead, Atlantic Salmon, Tilapia,and Rainbow Trout as well as a few other types of fish fish. It had financial difficulties an failed. Never once did any of its effluent enter Libert Run or any other trib to the Lil Lehigh.
