geebee,

Nothing fancy, just barbell eyes with a wool head and a zonker strip tail. Cut the wool head to form a scuplin head and use a black marker to give the olive head and tail some stripes.

Cool. I had wondered if you had been throwing Mickey Finns or something with a bit of red or yellow in mid winter....

I must try olive over white more often for brookies, I guess the more realistic flies pick up the larger ones.

Cheers
