Someone on a thread I don't remember (did a search did not find it) which one, recommended The Orvis Guide to Small Stream Fly Fishing By: Tom Rosenbauer. Hope you read this because I'd like to say thanks, I put it on my christmas wish list and it was one of the things I got. I really enjoyed reading it ( yep I finished it, lotta late nights reading) Info in there for newbs and veterans alike. I love anything about those little jewels, if you do as well it's a good one. Great pics also.
