I'm super jealous, even if you didnt catch anything. Beats being cold and not catching anything! Thanks for the video.

Sanibel is beautiful, was there a few years ago but did not have fly gear with me. One morning my Dad and I rented spinning gear and a motorboat at one place and I caught one redfish in four hours- certainly would not have caught any on fly gear.

I've always wanted to do fishing videos with a go pro, I should have gotten one of them instead of the camera i have now!
