In July a Trude can bring them up through three or four feet of clear water for a bite. Nice boulder gardens and great mixed walk and wade fishing.

From the mouth of the canyon down to Manhattan I've taken numerous large browns late summer into late fall.

The canyon is just so beautiful it's a wonderful spot to fish. The highway allows for major prospecting. If nothing is happening one place just move to some fresh turf with different character. If I went anywhere else it would be anyplace on the Madison.
