Just throwing this out to gauge interest. The owner did tell me it fills up pretty quickly however. July and early August are already booked.

Fadeaway and I are organizing a Montana trip to the place in the link below..... probably in mid to late August for five or six nights.

Flight from Philadelphia to Bozeman is a little over \$500.00 from either Philadelphia or Pittsburgh. With one stop in Denver, it takes about seven hours. Cost of the house would run around \$50.00 to \$60.00 a night per guy. Would like to get 10 -12. Total cost (including food and ground transportation) should not exceed \$1,100.00 per man for six nights.

Right now, we have three definite and three "depends on schedule".

Any takers?
