I got to fish with my prescription glasses Friday 28Dec. They were great! Nice to not have to worry about contacts or fit-overs. The only downside is that in low light conditions early or late I lose my corrective lenses if I remove my sunglasses. Guess I could carry my regular glasses along to solve that problem.

I got the copper lens. It's a little darker than I'd hoped, but acceptable. Lenses also come in grey and brown from Guideline.
