Thank you for the great info. I've been to that place by Wal Mart in Pittston, but that was prior to learning how to fly fish and I wouldn't have known a good deal if it bit me in the arse. Craigslist is kind of sparse, but there is an occasional deal to be had. As far as shoe size, I'm not sure. I wear an 11, and tried on my Nike shoes (not to wade, just to check) and they were a smudge too small. Should I go with a 12, or 13?
