URL:

I just uploaded the 2013 Season Size and Creel Limits to the iPhone and Android versions of the GPS Fishing Guide to PA and NJ. Early next week, I will be uploading the revised fishing destinations that will bring the data completely up-to-date for 2013. Please note that the current data update is only partially complete.

Once all the data is up-to-date in the phones for 2013, I'll be making the Garmin updates available on my website for free download to all existing customers.

After that, I'll be working to complete a major update to the Phone Apps that will add significant features. That update is already in progress and should be available by mid-February if not sooner.

I'll try to keep you all informed of the progress.
