I was disapointed by the show I was hoping to find some deals like what you would find at a gun show. It was crazy, there was like no deals at all, everthing was full price unless it was a discontinued item. I did see some new stuff one that caught my eye was the Nor-vice that vise is awesome.... it spins dubbing and hackle in a blink of eye. I would of bought if I had the money(\$265)..... 😬
