Key West Flats Fishing

Going to Key West for a wedding the first week in May. Based on some preliminary reading, there is good tarpon, bonefish, and permit fishing on the flats there. I have never fished the salt before, I know nothing and need as much help as I can get. Has anyone ever fished Key West before? Does anyone know of a good guide service down there? Advice on tackle, rigging, flies, etc.; any advice would be greatly appreciated.

Thanks,

-B
