We are down here right now and Pets advise was right on. Had a guide the second day here and had a great trip landed 9 redfish in 3 hours. On my own I have not found any. We are on Kiawah Island its not tbe best place to fish on your own. Going to try around Isle of Palm looks e like better area to fish with out a guide. Two of my grandsons are coming the end of the month will try Charleston guide when they get here. 70 degrees and sunny today.
