We are down here right now and Pets advise was right on. Had a guide the second day here and had a great trip landed 9 redfish in 3 hours. On my own I have not found any. We are on Kiawah Island its not the best place to fish on your own. Going to try around Isle of Palm looks like better area to fish with out a guide. Two of my grandsons are coming the end of the month will try Charleston guide when they get here. 70 degrees and sunny today.

Hope you're having fun!
