Dear NETFM,

Many years ago I fished the dam a little bit but caught mostly sunfish. I had better fishing in Laurel Run above the dam. It was also neat to drive around in the mountains with a car I borrowed from my college roommate. I liked to drive from Whipple Dam to Colyer Lake the "country" way.

Here's a little known trivia fact made even lesser known by the fact that I can't remember the name of the fraternity. Whipple Dam was the source of the salamanders consumed at it's annual "Bowery Ball" when I attended PSU. I know because I helped catch the salamanders one year.

All I remember is that the fraternity was down the road from Rec Hall but for the life of me I can't remember it's name? Can anyone help with that?

Regards,

Tim Murphy 😊
