"Pennsylvania Angler and Boater" by the PFBC is a bargain. Not every issue is a good one, but if you fish PA waters, it often has valuable information in it. I think it's something like \$12 a year (print) and if you buy your extended license, the digital version is "free".

I would like to see some new tyers featured as some of the flies Charlie Meck has been tying just don't look that great. The scud pattern in the last issue was relatively unimpressive. Not knocking on the guy as he's done a lot for our sport, but there are a lot of great tyers out there who would probably contribute.
