It's on the reproduction list so is Indiantown Run.

Yeah, they both have wild Browns that are stocked over pretty heavily. It always amazes me when I catch a wild Brown on those streams knowing how many stockers are dumped in each year. Both would be decent wild streams if they weren't stocked IMO. I'm pretty sure I saw some pics on here in the last year or two of what appeared to be some small wild Bows from Manada too.
