PS - Brad Pitt is a pretty good fly caster?

I believe the casting scenes in the movie were done by Jason Berger as a stand in double for Pitt(?). When the movie came out - I think this was about 20 years ago - I hated it and joined the chorus of old FFers who condemned the movie for bringing all sort of yuppie-fied newbies on to the stream.

When I watch this movie nowadays.....my views are more nuanced. It seems to me that the yuppie FFers of the 90s are long gone and there are (generally) fewer anglers on the water.

And I like the movie better and now think it's a pretty good watch.

(Can't imagine I'll ever feel the same way about *River Why* - dreadful movie)
