Fished with the Prof, KeithS, Sassquatch and Mr. Sassquatch Sr.[Andy's Dad] Also met up with an elderly lovely lady FF. None of us even saw a fish except up by the big pool off of Bradford Road in Chesterbrook. We fished from the Iron Bridge up to Bradford Road. 51 degree ambient air temp but very low water and sunny. Sun on my face and back felt delightful. Saw two deer run up the middle of the creek and was amazed they could navigate the rock strewn bottom at that speed. I fished a SJ Worm, Greenie Weenie Zebra size 20 midge and a combo hares ear/pheasant tail. Nothing was working. We think it was the water temp...43.6 degrees. Fished from 10 till 3PM. Sass it was a pleasure meeting your Dad. If you don't mind telling... how old is he? I saw he had a senior license though. With the artic air blast headed our way I think I'll put the rod in the garage for a while. Fade out
