I will continue to taget fish that are smaller then 5" and enjoy it. Ill be catchin while you people are elbow to elbow. Looks like almost know one agrees with you Tim murphy. waaa waaaa waaaaaaa.

+1

That's where I got the name "1wt" ..... for catchin' small fish in small water with a small fly rod!

If you guys really wanted to be ethical? Then to save the native trout streams, you should shoot every blue heron you see? Let's be honest here? Also, please shoot every stinkin' Cormorant you see in a lake or river!

Now, that would help the 5" brookies?
