During my spare time in CP there were a few places I would fish during school days. There's the Middle Patuxent in savage mill which is up rt 1 north of laurel. You can fish right at the mill and up stream. There's a wild trout stream called the Paint branch but there aren't really a lot of trout in it. They're there and you'd want to fish from Randolf Rd upstream towards Cloverly. You might want to give a shot at Shad fishing. The Potomac has awesome shad fishing in April. Oh, I almost forgot, the Patuxent in Laurel also receives a stocking in the spring. The MD dnr also has an interactive map of all stocked trout streams.
