Ross Vexsis 4 7-9wt. This retails for \$375. It has never been used and is in the original box (without line). I am only selling it because it was a gift and the giver was unaware that I had just purchased an Orvis 9wt set up. Because it is brand new and such a high quality reel I'm not willing to go much lower than the retail, but I recognize that if you wanted to pay retail you'd just buy it from the manufacturer--I'd say let's start around \$340.

If anyone wants a rod possibility with it, I also have a TFO TiCr X 8 Wt. 7'6. Fast action. Four-piece. Never used either. It retails for \$250, I'd sell for \$210 or consider offers.

Shoot me a PM. Thanks for considering.
