I guess this would be about the 4th list of this type. PA put together this for the Little Juniata case:

[Commonwealth Findings of Fact for Little J case](#)

Scroll to paragraph 35 for discussion of the various lists used by DEP in conducting their business which includes issuing permits for dams and other obstructions.

Note the Oberdorfer list, paragraph 40, was the result of extensive historical research.

By the way, if you are into PA economic history, the use of arks and such, etc., a number of pdf documents from this case are good reads. This one is fairly well organized:

[Plaintiff's Proposed Finding of Fact](#)

You never know the day may come when those routes come in very handy.
