Thanks ryguyfi. I've yet to try to tie a leader and tippet to the ring while it's still on snap swivel. I have clumsy hands and tying knots has always been a problem for me. Last year I tied tippets to my leaders before going out so once my tippet was too short I just changed leaders.

I could also use more practice but those tippet rings are small.

I also picked up some very small swivels. They seem to be a bit easier to handle.
