Becker,

I'm going off my memory.... but if I recall correctly, the threads here on Paff about Penns involved landowner opposition to changing the regs from All Tackle Trophy Trout - which allows bait fishing and harvest of two fish over 14" - to a new reg restricting tackle and requiring artificial lures.

At least I think that was what it was about - please correct me if I'm wrong.

What has happened instead, was a new proposal was put forth by the PFBC that would merely change the harvest from Trophy Trout to a slot limit that would allow the harvest of smaller fish but nothing over a certain size. This is what was approved today. As far as I know, the approved new proposal does still allow bait fishing. I do not know where the landowners stood on a slot limit - I just think they were opposed to gear restrictions.

Again, please chime in if I'm off base.
