Well I have officially taken my musky game to the next level. I have not received it yet but it is ordered and should be here in the next couple of weeks. I have taken the plunge and got a boat. It is a shallow water skiff made by a drift boat company called Hog Island. I will be able to cover much more water and much more efficiently. If I wasn't already a musky freak I pretty much have just gone to about an 11 on a scale of 10. I'm pretty stoked.
